## LogiMAT China 2022

Dear exhibitors,  
Dear friends,

Over the last two years, it became clear how vulnerable the business corporations – between people and companies worldwide – really are. We learned that international businesses and international supply chains are not as obvious and indestructible as we might have presumed. Therefore it is more important than ever to learn from the past and prepare for the future. International business relationships and trusting corporations offer everyone involved a solid basis for the future - not just in logistics.

The pandemic made clear to us how important it is to meet and see other people. It is not only a human need to socialize with friends, it is vital for business to communicate and socialize with your business partners also – From your partners next door till your buyers and suppliers overseas. That is what LogiMAT China 2022 is all about and we are happy to be able to offer you this opportunity to meet partners and customers in a safe and convenient environment.

At new LogiMAT China 2022 in Shenzhen, we bring people together and offer you a platform to develop and increase your day-to-day business – A well-organized place to find and to be found.

Warehouse automation, digitalisation, the internet of things, smart identification – from conception and design till realization – but also Software solutions for warehouse management, forklifts, AGV's, shuttles, racking and packaging solutions will be presented at LogiMAT China 2022. We are honoured to offer you this platform to present your products, solutions and systems to a wide range of international guests.

In November 2022, LogiMAT China 2022 will be collocated with DMP Great Bay Area Industrial Expo. All internal Logistics process and solutions will be covered in Hall 11 at LogiMAT China. DMP Great Bay Area Industrial Expo will traditionally focus on future manufacturing technologies. To be co-located with DMP, LogiMAT China will offer the visitors first-hand intralogistics solutions and concepts. Meanwhile, DMP will bring LogiMAT China deeper into GBA's manufacturing industry and help create a new chapter for LogiMAT.

We are looking forward to meeting you in Shenzhen during November 9-12 at LogiMAT China 2022.

Yours sincerely

”

**Peter Kazander**

Managing Director

# Exhibition Sections

## Materials handling and storage technology

Storage and handling systems  
Automation and control systems  
Cranes, lifting gear  
Continuous handling equipment  
Lifts  
Handling equipment  
Conveyors  
Luggage handling  
Wheels and castors  
Parts and accessories

## Warehousing and operational equipment

Racks, rack systems  
Rack operation equipment  
Shelf inspection and repair  
Protection for columns and shelving  
Order-picking equipment  
Kanban and organizational solutions  
Hall and marquee construction  
Partition walls, works office and office cabins  
Hall floors and floor refurbishment  
Hall and outdoor lighting  
Cleaning equipment for warehouses and storage facilities  
Heating and air-conditioning systems  
Ladder systems  
Industrial doors, door seals  
Work mats  
Workplace systems  
Storage and floor-marking systems  
Floor protectors and dirt-trapping mats  
Handling and storage of hazardous goods

## Warehouse and production controls / Robotics

Control systems and equipment  
Production robots  
Manufacturing Execution Systems (MES)  
Fine planning  
Workforce planning  
ERP and PPS systems  
Planning and development  
Research and technology

## Packaging, weighing, measuring and franking

Returnable and non-returnable packaging  
Industrial packaging  
Padding materials and edge protection  
Packaging materials  
Pallets  
Packaging and unpacking machines  
Pallet inverter and dispenser  
Palletising robots  
Shrink and stretch systems  
Hooping techniques  
Weighing and metering equipment  
Measuring systems and equipment  
Franking systems  
Packing development and consultancy

## Loading technology and systems

Loading ramps, loading bridges  
Hydraulic platforms, lifting tables, adjustable ramps  
Transshipment equipment  
Loading and unloading equipment  
Security technology for loading zones  
Tensioning straps and chains  
Antislip mats  
Antislip pallets  
Ram-protection products

## Retrofitting

Warehouse systems  
Crane systems  
Conveyor systems

## Ground conveyors and accessories

Forklift trucks  
Stacker guidance systems  
Pallet stackers  
Driverless transport systems  
Electric vehicles  
Tugger trains and trailers  
Ancillary equipment for stackers  
Castors and Wheels  
Accessories and Parts

## Information and communication technology

Supplier Relationship Management (SRM)  
Customer Relationship Management (CRM)  
Integration  
Consignment tracking and identification systems  
Sensor solutions and systems  
Telecommunications  
Human-Machine-Communication  
Cloud services and solutions  
Supply chain software  
Video tracking and monitoring

## Software for storage systems

Storage management software  
Storage control systems  
Data transmission  
Material-planning software  
Hardware

## Software for stock management, inventories and archiving

Inventories  
Stock management  
Controlling  
Document management  
Archiving

## Energy, environmental technology, recycling and waste disposal

Energy supply and management  
Renewable energies  
Batteries, battery management and rechargers  
Waste treatment  
Waste air/water processing  
Compaction systems for recovered waste  
Feeder systems

## Security

Buildings/site security  
Safety at work  
IT security  
Fire Safety

## Outsourcing partners

Storage  
Recruiter  
Facility cleaning  
Data centres (EDI/ASP)  
General contractors

## Logistics Facilities

Logistics locations  
Location consultancy  
Logistics properties  
Insurances  
Finance

## Consultation, planning and implementation

Corporate and logistics consulting  
Personnel consultants  
SAP consultation and integration  
Finance, leasing, rental  
Insurance

## Authorities, organisations, training and media

Trade associations  
Universities and colleges  
Other educational establishments  
Institutes  
Media

## Order-picking systems

Automatic order commissioning  
Pick-by-voice  
Pick-by-light  
Pick-by-colour  
Pick-by-scan  
Pick-by-weight  
Pick-by-vision, smart glasses  
Gesture-controlled order picking  
Electronic pick lists

## Labelling and identification

Identification systems  
Printed labels and labelling machinery  
Auto-ID / RFID / NFC / Barcodes  
Labels, ink, supplies  
Transponder technology  
UMTS-GPRS-WLAN  
Hardware / Readers

## (Software for) Simulation

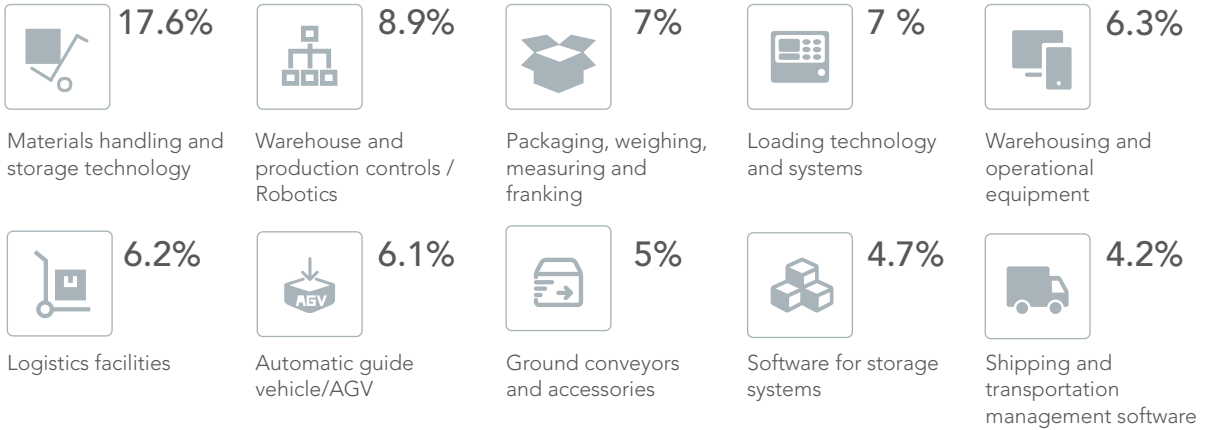

Supply-chain simulation  
Simulation of manufacturing scenarios  
Simulation-supported fine-planning of production  
Robot simulation  
3D-simulation solutions  
Strategic consultation
